Allowable Costs

All items requested will be considered on a case-by-case basis during the budget review process. Items under the program must be purchased using the legislative guidelines established by the STOP School Violence Act of 2018, Consolidated Appropriations Act, 2018, Public Law 115-141, Division S-Other matters, Title V. In addition, each item must programmatically link to the COPS Office STOP School Violence: School Violence Prevention Program (SVPP) activities described in your application. To the maximum practicable extent, all equipment and products purchased with these funds must be American-made.

The allowable uses of SVPP funds include the following:

- Acquisition and installation of technology for expedited notification (to law enforcement) during an emergency
- Coordination with local law enforcement
- Placement and use of metal detectors, locks, lighting, and other deterrent measures
- Training for local law enforcement officers to prevent school violence
- Any other measure that the director of the COPS Office determines may provide a significant improvement in security

Budget requests may be made in the categories described in the following sections.

Coordination—Civilian/Nonsworn personnel (salaries and benefits)

Civilian staff must be hired on or after the award start date and positions must directly relate to the SVPP project. Generally, supplies include any materials that are expended or consumed during the course of the SVPP project. Such costs may include training manuals, paper, printer ink, pens, postage, etc. All supply items must be directly related to the SVPP project.

**Travel/Training**

Travel/training costs include grant-related travel costs for the grantee to visit other jurisdictions engaged in similar programs or to attend conferences or trainings directly related to the goals of the project. Expenses for transportation, lodging, meals, and incidental expenses (if travel is more than 50
miles from the program location) will be reviewed in accordance with applicable guidelines as part of the application process. An example of such training would be school violence prevention training for law enforcement officers.

**Contracts/Consultants**

Consultant expenses and contracts include goods or services that directly contribute to the implementation or enhancement of the project. The use of a consultant should be more economical than direct employment. Contract/consultant costs may include costs to provide one-time training to staff for equipment operation or usage and contracting/consulting services that provide such things as needs analysis, installation, and testing. Compensation for individual consultant services procured under a COPS Office award must be reasonable and allocable in accordance with OMB cost principles and consistent with that paid for similar services in the marketplace. Unless otherwise approved by the COPS Office, consultant rates will be based on the salary a consultant receives from his or her primary employer, as applicable, up to $650 per day. For consultant or contractor rates that exceed $650 per day, the COPS Office requires written justification if the consultants or contractors are hired through a noncompetitive bidding process and recipients must receive COPS Office approval of those rates before drawing down funds. Determinations will be made on a case-by-case basis.

**Other costs**

- Other costs may include such items as software and prepaid warranties or maintenance agreements (not to exceed 24 months), overtime costs for civilian or law enforcement personnel engaging in SVPP-related activities, or other miscellaneous items that have a direct correlation to the overall success of a recipient’s project objectives (such as awareness campaigns) and are necessary for the project to reach full implementation.

Applicants must provide sufficient explanation for items requested via the “Budget Narrative” section of this application. Applicants will be notified of any points of clarification the COPS Office may require.
