Q. What is the purpose of School Violence Prevention Program (SVPP) funding?

Q. What is meant by evidence-based school safety programs?

- A.** The term “evidence-based” means a program, practice, technology, or equipment that meets one of the following criteria:
- Demonstrates a statistically significant effect on relevant outcomes based on one of the following:
 - Strong evidence from not less than 1 well-designed and well-implemented experimental study;
 - Moderate evidence from not less than 1 well-designed and well-implemented quasi-experimental study;
 - Promising evidence from not less than 1 well-designed and well-implemented correlational study with statistical controls for selection bias;

- In the case of technology or equipment, demonstrates that use of the technology or equipment is consistent with best practices for school security, including
 - applicable standards for school security established by a Federal or State government agency;
 - findings and recommendations of public commissions and task forces established to make recommendations or set standards for school security;
 - compliant with all applicable codes, including building and life safety codes.

Q. Who is eligible to apply for funding?

A. The following entities are eligible to apply under this program:

- States, units of local government, Indian tribes, and their public agencies, including the following:
 - School districts, including public charter school districts and school districts with a single school
 - School boards
 - Law enforcement agencies

The following entities are ineligible to apply as primary applicants:

- Individual schools not operating as school districts
- Independent schools and private schools, including private charter schools

Applications should demonstrate a comprehensive approach to school safety.

Q. May a group of agencies (units of local government and their corresponding school districts) apply as a consortium?

A. Consortia are not eligible to apply. Cities and municipalities are encouraged to partner and work together with one single applicant applying as the prime applicant. Units of local government may also be listed as subrecipients.

Q. Can an agency with an existing SVPP grant apply again this year for a different project?

A. Yes, SVPP is an open solicitation and previously funded applicants are not restricted from submitting an application.

Q. How long is the award period for SVPP?

A. SVPP is a three-year (36-month) award program with an opportunity for a no-cost time extension. Budget requests must not exceed this three-year period.

Q. Is there a cost share or matching funds requirement?

- A. Yes, there is a local cost share or matching funds requirement of least 25 percent. The local cost share or matching funds must be in the form of cash and must be paid during the award period. See the [DOJ Grants Financial Guide](#) for the list of sources for which cash match may be applied.

Q. Am I able to apply for a waiver of the local cost share or matching funds requirement under SVPP?

- A. Yes. Applicants may request a waiver in the online application. The COPS Office may waive the 25 percent local cost share or matching funds requirement in the case of a recipient with a demonstrated severe financial need. During the application process, your agency's waiver request will be evaluated based on the availability of funding, a demonstration of severe financial need as reflected through the fiscal health data section of this application, and a comparison of your fiscal health data with that of the overall applicant pool. **Local cost share or matching funds waivers will be limited, so all applicants should plan their budgets with at least a 25 percent local cost share or matching funds included.**

Q. Is there a nonsupplanting requirement for this program?

- A. No. SVPP does not have a nonsupplanting requirement.

Q. What is the formula for disbursing SVPP award funds?

- A. SVPP is not a "formula" award program. All applications will be reviewed based on their answers to the background information questions, improved security need questions, need for federal assistance questions, submitted project and budget narratives, and other relevant factors determined by the COPS Office. Awards are made on a competitive basis.

Q. What is the maximum amount to be awarded per award?

- A. Each award will be capped at \$500,000 in federal funds, and approximately \$1,000,000 of the available funding will be reserved for microgrants for school districts, including rural, tribal, and low-resourced schools. Microgrant award requests must be for \$100,000 or less. Consideration for microgrant funding does not exclude your agency from other SVPP funding.

Q. How much funding is anticipated to be awarded under SVPP and how many awards does COPS expect make under SVPP in FY24?

- A. Up to \$73,000,000 is anticipated to be awarded under SVPP with 235 awards anticipated in FY24.
