

Engaging Community Leadership/Tribal

Example

*Some Questions to Think About  
As You Seek to Engage Community Leaders/tip*

What questions do you have about building collective leadership in your community?

What do you see as the primary issues facing your community, and how are people actively addressing these issues?

What types of action need to be taken that you do not see anyone or any group doing?

How would you proceed to address these gaps in community action?

Who would you engage in working with you on this action?

What issues do you think might come up when you try to bring the "right" people together?

How will you address these issues?

How will the larger community be involved in evaluating what you are doing, and what feedback loops and lines of accountability exist between your group and the community?
