

SECTION 11: PROJECT DESCRIPTION (NARRATIVE)

Agencies that seek funding under this program are required to submit a separate narrative addressing A, B, D and E below and describe how the grant will establish or enhance existing comprehensive methamphetamine reduction efforts through coordinated prevention, intervention/treatment, and enforcement activities. Programs may address any or all of the following areas: **Child Endangerment, Enforcement, Intelligence Gathering, Drug Courts, Partnership Development, Precursor Chemicals, Prevention, Production, Training, and/or Treatment.**

Your agency is not required to submit supporting documentation with this application. However, your agency must maintain copies of the records used in this grant submission for future review in the event of a site visit, audit, or other request. Data used must be data that was recorded in official records. Please do not submit any confidential data or reports with your application.

Each section response should specifically answer the questions posed and be limited to no more than 3,000 characters. Applications will be evaluated based on the quality of the response. FY 2010 applicants should insert their answers directly into the application forms and will not be required to attach a separate document.

The narrative will be a significant factor in the application review and approval process.

Failure to provide this information may delay the review of your agency's application.

Use the instructions below to provide a comprehensive summary of all activities that will take place to permanently reduce the existence of methamphetamine in your jurisdiction. Agencies should also familiarize themselves with *An Evaluation of the COPS Office Methamphetamine Initiative* to help in developing an effective program.

Please limit each response to 3,000 characters or less.
